

DUBLI NETWORK

# Compensation Plan

FEATURES & BONUSES

# 1. Fast Start Bonus (FSB)

Earn a 10% Fast Start Bonus each time you personally enroll a new member that purchases an Enrollment Package of either \$495 or \$2475.

The Fast Start Bonus is equal to 10% of the package price. This is \$49.50 to \$247.50 that you can earn up front on every new enrollment as long as you maintain your active status.

## 2. Team Cycle Bonus (TCB)

You are qualified to earn a weekly 10% Team Cycle Bonus when you enroll two Business Associates that purchase an Enrollment Package and are placed one on your left team and one on your right team. As long as you maintain active status and remain qualified with at least 1 active personally enrolled on your left and 1 active personally enrolled on your right, you are eligible to earn a Team Cycle Bonus.

Each Enrollment Package has an associated point value that is equal to either 495 or 2475 points. This point value is referred to as Commissionable Sales Volume (CSV). A Team Cycle Bonus is earned and paid weekly each time 400 CSV is achieved on your left team and 400 CSV on your right team. This is referred to as 1 cycle on which you are paid 10% of 400 CSV in dollars, \$40.

### **EXAMPLE 1:**

You achieve 1000 CSV on your left and 495 CSV on your right this week. You generated 1 cycle of 400 CSV on the left and 400 CSV on the right that pays you 10% of 400, which equals a \$40 Team Cycle Bonus. The remaining balance of 600 CSV on the left and 95 CSV on the right carries over to the following week.

### **EXAMPLE 2:**

You end the week with 800 CSV on the left and 800 on the right. This equals two cycles. You earn \$40 per cycle, so in this example you earned an \$80 Team Cycle Bonus (10% of 800 CSV in dollars). In this example, there is no remaining balance; therefore there is no carry over of volume (CSV) to the following week.

**The maximum Team Cycle Bonus amount that you can earn is \$25,000 per week. When you reach this maximum, there is no carry over of volume.**

### 3. Gift Bonus Points are extra bonus points given with every Enrollment Package.

Each Enrollment Package comes with 4,000 to 20,000 Gift Bonus Points that are added to your Community Team as CSV to help accelerate your Team Cycle Bonus earnings potential as you start to build your Personal Team. The VIP Membership Package gives you 4,000 Gift Bonus Points and the PPA Package gives you 20,000 Gift Bonus Points. This gifted point volume helps you get off to a fast start and expires 30 days after your Enrollment Package was purchased. Take action now!

### 4. First Level Matching Bonus

Earn a 10% First Level Matching Bonus on the Team Cycle Bonuses earned by your personally enrolled Business Associates.

Those that are personally enrolled by you are on the "First Level" of your Unilevel organization.

**EXAMPLE:**

*When one of your personally enrolled (your first level) earns a \$800 Team Cycle Bonus, you will*

*earn an \$80 Matching Bonus that is equal to 10% of his/her \$800 Team Cycle Bonus, as long as you remain both active and qualified.*

### 5. Generational Matching Bonus

You are eligible to earn a 5% up to 10% Generational Matching Bonus when you reach the rank of Team Leader or above.

# Definition of Terms

**BA** – Business Associates is the general term DubLi Network uses when referring to all of its members. At the same time the term BA is used to mean people who enroll with a \$99 Business Package only. The BA position cannot enroll others to establish a DubLi Network organization. A BA can only refer and sign up customers to DubLi.com. A BA can qualify or upgrade to a Team Member (TM) position.

**TM** – Team Member is a member who has purchased the \$99 Business Package and a Membership Package to become part of DubLi Network. Team Members can enroll Business Associates to DubLi Network and sign up customers for the DubLi Cashback Program (DubLi.com).

**ENROLL** – The process of affiliating with the business opportunity offered by DubLi Network. Every enrollee must have a sponsor – the company cannot be a sponsor.

**SPONSOR** – The Business Associate who is credited for sharing the DubLi Network business opportunity with you and enrolled you as a Business Associate (BA).

**SUPPORT LINE** – The term support line refers to the portion of your direct genealogy that precedes you. Your support line consists of the Business Associate who is your sponsor, plus his/her sponsor, and his/her sponsor's sponsor, etc. all the way to the top.

**TEAM** – Your team refers to those directly sponsored by you, plus all in their lines of sponsorship. Your team consists of all your Level 1, Level 2, Level 3, and so on within your organization. This represents your personally sponsored Business Associates through a potentially unlimited depth.

**GENEALOGY** – Similar to your family tree, your genealogy includes you, the Business Associate, plus the Business Associates enrolled before you and those enrolled after you.

**PLACEMENT** – Placement of your newly enrolled Business Associate in the genealogy can either be positioned or placed on your left team or your right team at the next open position.

**COMMUNITY TEAM** – In the genealogy tree view, this is the outside team that you share in common with your sponsor.

**PERSONAL TEAM** – In the genealogy tree view, this is your inside team starting from you to your next enrollment and so on.

**FIRST LEVEL** – Based on your Unilevel organization, every person that you personally enrolled and designated you as the sponsor is referred to as your first level. You become eligible to earn a First Level Matching Bonus when you sponsor one Team Member (TM) or higher rank on your left team and one TM or higher rank on your right team both maintaining active status.

## **PLACEMENT SETTING**

Your first enrollment will always be placed on your Community Team – the team that you share in common with the person that enrolled you.

Thereafter, the placement of your new enrollments in the genealogy tree will be determined by the setting preference you choose (Community Team, Personal Team or Auto-Placement). Auto-Placement means that you are instructing the system to automatically select the next available position on the team that has the lesser volume. You may change your placement setting at any time.

Note: You do not have the option to place your enrollments on the inside left or inside right.

If you do not choose a placement setting, the system default is Auto-Placement after your first enrollment is placed on your Community Team.
